

# Conditions of study progress monitoring

Name (as stated in your passport): \_\_\_\_\_

Date of Birth: \_\_\_\_\_

Student number: \_\_\_\_\_

## Study progress

In order to maintain your Dutch residence permit for study, you are required to obtain at least 50% of the to be obtained credits every academic year. The Erasmus University Rotterdam, your recognised sponsor, is obliged to make sure that you as a student meet the [requirements](#) in order to maintain your residence permit.

Every year, we will monitor your study progress and report to the IND in case you did not obtain the required 50% of credits and no [exceptional personal circumstances](#) as referred to in Article 7.51 WHW and Article 2.1 of the WHW Implementation Decree (Dutch: [Wet op Hogeronderwijs en Wetenschappelijk onderzoek](#)) are the cause of the student's insufficient study progress.

Study progress monitoring is a condition by virtue of Article 4.20 lid 1 sub e of the Aliens regulation 2000 (Dutch: [Voorschrift Vreemdelingenwet 2000](#)) as referred to Article 6.5 and 6.6 of the [Code of Conduct for International students](#) in Higher education.

- Bachelor students please note:  
Erasmus University Rotterdam uses a binding study advice (BSA) system for all bachelor programs. The BSA requirement gets priority over the 50% requirement of the study progress monitoring policy. So, make sure you know what this entails.
- Premaster students please note:  
A premaster may never exceed one year. If you cannot continue to a Master program after that year, your residence permit will be cancelled.

## Take your responsibility

We will remind you of the study progress condition, but it's your own responsibility to keep track of your study results and in the case of personal circumstances, schedule an appointment with a student advisor and student counselor.

## Time frame

The academic year runs from the 1<sup>st</sup> of September until the 31<sup>st</sup> of August. After each academic year, the EUR, will determine your annual study progress.

## Consequences

Insufficient study progress results in deregistration, and your residence permit may be revoked. Consequently, we are no longer your recognised sponsors and cannot apply for a new residence permit for you or extend your residence permit. This means you will have to apply for a different type of residence permit or change to a different institution in the Netherlands.

Be aware that if you wish to switch to a different study program within the Erasmus University Rotterdam you still need to obtain at least 50% this year.

**Declaration of intent:**

I hereby declare that I'm aware of study progress monitoring and of the consequences of not obtaining sufficient study progress at the end of one academic year.
