## \* Are you a minor?

Then please read this carefully:

### ABN AMRO:

In the case of being a minor, you should make an appointment at an ABN AMRO office. A parent must be present at the appointment in one of our branches for opening a bank account.

### ING:

- Minors need to visit the office of ING with a parent/guardian;
- The adult needs to show an identity document. This need not be a Dutch identity document, neither should the adult have a Dutch living address;
- In addition: the student needs to bring a proof of enrolment in an educational program;
- What is requested to show moreover is a verified postal address in the Netherlands for correspondence; the student's living address will do.

Experience shows that local officers are unfamiliar with the legal requirements for opening bank accounts for (minor) internationals. In case you get rejected during application, please call the service line using number 0031202288888 and have them explain the local officer about the legal terms and conditions applicable.

### BUNQ:

Minors can easily open their **own** account as long as they have the approval of their parent or legal guardian. The parent or legal guardian has to have a Bunq personal account. This way we can verify his/her identity and confirm that he/she is the legal guardian of the minor. While completing your profile, you will be reminded that the minor needs approval from a legal guardian at the end of the registration process.

### N26:

Although during your online registration you will learn that you, also at N26, you have to be over 18 to apply for a debit card, it is possible for *your parents/guardians* to apply for this card on your behalf. Whereas they will still be the official card owners (i.e.: their identity card or passport will be linked to the product), *you* can manage the card as a transaction tool.

### Rabobank:

At Rabobank, minors may open a bank account providing that:

- During an appointment for application at the bank office, they can hand over a proof of residing at a Dutch living address; a proof of enrollment and (for non-EU citizens) a letter stating a residence permits has been requested;
- Their parent/guardian is able to hand over a BSN number. For a person not residing in the Netherlands, it is also possible to obtain a Citizen Service Number (BSN). Your parent/guardian should apply for the registration of non-residents. Following the procedures, your parent/guardian will be recorded as a non-resident in the Municipal Personal Records Database (RNI).
