

Chairperson Students-for-Students, Community for Learning and Innovation (10 hours per week)

JOB DESCRIPTION

As the Chair of Students-for-Students (S4S), you will take part in the decision-making process regarding future projects and activities of S4S. This means you will set goals, keep track of progress and evaluate the team performance. Besides leading and motivating the S4S team, you will be responsible for stakeholder management and the budget.

This role also makes you a member of the CLI Core Team, which plays a fundamental role in executing innovation projects within faculties and across the EUR, by funding educational research, organising networking events and through developing strategic partnerships with other institutions and initiatives across EUR. This responsibility requires you to maintain good relations with the University Council and stay updated on relevant topics, most importantly the Higher Education Quality Agreements (Hoger Onderwijs Kwaliteitsafspraken).

As you represent the bridge between student projects and the CLI, you are responsible for getting more students involved with the CLI. This requires you to seek out creative collaborations with other organisations, pitch interesting ideas, promote the S4S Platform, while expanding and engaging the CLI network of students. For that you will work together with an engaging and enthusiastic team of both students and CLI members.
