2. Students who participate in the programme are entitled to several additional facilities, including academic advice regarding the double study from the coordinator of the Double Degree in Law & Business administration.

3. Students who, on the basis of a pre-university education diploma, enrol at EUR for both the Business Administration master programme and the Commercial Law master programme are entitled to the additional facilities referred to in paragraph 2 if their cumulative mark for pre-university education totals at least 7.0.

4. A student of the Double Degree in Law & Business administration students who obtain fewer than 45 EC in an academic year during their studies in Business Administration and/or LL.M./Fiscal Law may be denied access to the additional facilities of the programme by the coordinator of the Double Degree in Law & Business administration. Chapter 7 Interim examinations

Article 20### Requirements placed on interim examination content

1. Interim examination questions and assignments may not exceed the scope of the interim examination content announced in accordance with Article 3 of the Regulations from the Examination Board ESL 2019.
2. The questions and assignments referred to in the previous paragraph should address more than half of the interim examination content. If necessary, an indication will be made of how detailed the students’ responses have to be.
3. The course description describes the acquirements the student must meet in order to pass the examination and the criteria on which the student is assessed.
4. If an interim examination comprises a combination of open and multiple choice questions, the multiple choice section may account for no more than 60% of the mark unless otherwise decided by the Dean.
5. Questions and assignments based on interim examination content offered solely via lectures may account for no more than 25% of the interim examination.
6. The assignment form will state how many points can be earned for each question or part of a question, and how many points qualify as a satisfactory result.
7. The duration of the interim examination is designed to give the student a reasonable opportunity to respond to the questions and complete the assignments.
8. The examiner provides sample exam questions with an answer indication to all students no later than one week before the exam.

Article 21### Type of interim examinations

1. The interim examination of each unit of the Bachelor’s or Master’s cumulative assessment or a combination of mid-term examination may be administered in:
   - Writing (on paper and/or digital), for example open questions, multiple choice questions or an assignment;
   - verbally;
   - a combination of both.
2. If a combination of examination types is used, the examiner may decide that each element of the examination has to be completed satisfactorily.
3. Upon request, the Examination Board can allow a test to be taken in a different manner from the determined in the first paragraph.

Article 22### Studying with a disability

1. Students with a handicap, chronic disease or disability will be given the opportunity to sit an interim examination that has been modified where possible to suit the disability, in accordance with article 4 of the Rules of the examination board 2019.
2. To this end, students must submit a request to the Examination Board ESL.

Article 23 Extra-credit assignment regulation

1. As a means of preparing for interim examinations, the examiner may offer students the opportunity to complete extra-credit assignments, both individually and in groups. The examiner may establish additional requirements with regard to attending, actively participating in and preparing meetings held as part of the extra-credit assignment/assignments.
2. The credit granted to students for extra-credit assignments receiving a satisfactory assessment from the examiner include:
   a. a factor of one or two points multiplied by the mark awarded for the extra-credit assignment/assignments and divided by ten will be added to the mark received for the interim examination;
b. exemption from a number of interim examination questions; these questions are deemed correctly answered;
c. exemption from part of the interim examination content, possibly in combination with an exemption from a number of interim examination questions;
d. several additional interim examination questions assessed according to the same standards;
e. use of a weighting coefficient, announced in advance by the lecturer, with the mark earned to determine the final mark (unless this is lower than the mark received for the interim examination).

3. Any credits earned are valid throughout the academic year in which they were earned, unless the Examination Board ESL determines a longer term of validity.

4. In so far as the nature of the extra-credit assignment does not dictate otherwise, Article 15 and 16 of the Regulations from the Examination Board ESL apply by analogy.

Article 24  Exclusion of an examination resit after a satisfactory result
An examination resit is not permitted if a satisfactory result has been obtained for an examination.

Article 25##**  Resits
1. For each unit of the Master’s cumulative assessment, at least two opportunities to sit the relevant interim examination will be offered each year. The second opportunity constitutes, pursuant to paragraph 3 of this article, the general resit.
2. An interim examination may consist of two or more mid-term exams.
3. During the general resit, students may sit a maximum of two interim examinations.
4. Resits for units that consist wholly or partially of skills training can exclusively be sat by candidates who attended regular classes for the unit in the study year in question and concluded it with a fail.
5. There is no opportunity to resit the Research and Writing Skills examination during the general resit period.

Article 26  Registering for interim examinations and cumulative assessments
1. Only students who register for written interim examinations on time may take part in said examinations.
2. Registration for all written interim examinations is possible during the registration period via Osiris Student. Information about the registration period will be provided by the faculty via the study guide, among others. Students who cannot register via Osiris Student should contact the Erasmus Student Service Centre (ESSC).
3. After the expiration of the regular registration period, it is still possible to register with the ESSC to up to two working days prior to the examination. The fee for late registration is € 20.00 per interim examination. Students should show proof of payment when they report to take their interim examinations, so that they can show this to the invigilator, if their names do not appear on the list of participants due to late registration.
4. If a student nevertheless takes part while being in violation of any of the foregoing clauses of this article, the result will be invalid.

Article 27##**  Student progress administration
1. The faculty registers the students’ individual study results and makes these accessible to the students via Osiris.
2. The student can request an authenticated study progress overview from the exam administration.
Article 28  Cancellation of an exam

1. Changes to the scheduled times of the examination will only take place in the event of a force majeure.

2. If the Royal Netherlands Meteorological Institute (KNMI) issues a weather alarm (code red) for a certain period of time for the entire country or specifically for the region Rijnmond due to extreme weather conditions, the dean decides which written examinations scheduled in the relevant period will be canceled. The cancelation is immediately announced on the homepage of the EUR, the news- and Facebook pages of the Front Office USC and of the Student Administration on MyEUR.

3. In the event of an emergency – not being a weather alarm – the dean decided upon the cancellation of examinations on the basis of Article 12a of the Rules of the Examination Board.

4. The dean will determine, as soon as possible after cancellation, in consultation with the relevant examiners, the date on which the relevant examinations will still be taken, preferably within two weeks of the original examination date. The new examination dates are immediately published on MyEUR.
Chapter 8  Interim examination results

Article 29**  Interim examination assessment

1. If an interim examination is administered and assessed by more than one examiner, the examiners will jointly ensure that the assessment is conducted using the same standards.
2. The examiner will ensure that a response key is made available after the conclusion of an interim examination comprised partially or exclusively of multiple-choice questions.
3. The Examining Board drafts regulations concerning the manner in which examination results are registered.

Article 30**  Follow-up meeting

1. After the assessment of an examination, as described in Article 21 paragraph 1, the student will be given the opportunity to inspect his or her assessed work and the questions and assignments of the respective interim examination. The examiner shall provide an explanation of the contents of the interim examination and the assessment criteria applied in the form of a response indication. Inspection and explanation can take place in the manner (individually, collectively, orally, digitally or written) chosen by the examiner. The place and time of the inspection and explanation shall be determined – with due observance of the second paragraph – by the examiner and if possible announced in the study guide of the examined component, but at the latest on the date of the interim examination. In the event of a written interim examination, the place and time of the inspection and explanation will, if possible, be stated on the application form. The programme director can impose further rules with regard to the form and manner of the inspection.
2. The inspection and explanation will take place within ten working days after the announcement of the results of the respective interim examination. This period does not apply to the resit interim examinations that take place in the general examination resits of June/July. The inspection and explanation of these resit interim examinations shall take place within due time, but at the latest five working days before the commencement of the new academic year.
3. In the event of a collective oral inspection and explanation, the student will be obliged to register in advance. Other procedural rules will be placed by the examiner on internet pages accessible to the students.
4. A student who has sat the exam and has not appeared at an organised collective or individual inspection and explanation can only obtain on request a copy or digital scan of the assessed examination paper without any specific explanations. See above under paragraph 7 of this article.
5. If the student suspects obvious mistakes or apparent errors in the determination of the result, the student can make this known in a manner indicated by the examiner. Examples of obvious mistakes or apparent errors are the absence of an assessment of one or more questions or sub-questions of an interim examination or the wrong addition of the scores given in the assessment of the questions or sub-questions. A disagreement about (the application of) the response indication, for instance the scores given to one or more questions or sub-questions, will not be discussed by the examiner. The examiner will review the result officially, which will take place – if possible – within ten working days after the examiner has established the obvious mistake or the apparent error, but in principle at the latest before the end of the academic year in which the respective interim examination was taken. If a review leads to a change in a mark already published in Osiris, the examiner will inform the student of this by email. There is no possibility to appeal to the Examination Appeals Board (CBE) for the result determined by the examiner. Neither is there an opportunity to request the Examination Board to form an independent opinion of the result determined. Notwithstanding the provisions in Section 8:4 subsection 3 under b of the Dutch General Administrative Law Act (Algemene Wet Bestuursrecht: ‘Awb’), within six weeks after registration of the mark in Osiris the student can only appeal to the
Examination Appeals Board (CBE) about the way in which the final result has been formed.

6. Immediately after an oral interim examination, there will be a review involving the examiner/examiners and the student. The provisions set out in the previous paragraphs of this article also apply, insofar as is applicable, to oral interim examinations.

7. The student can obtain a photocopy or digital scan of the assessed paper no later than 10 working days before the expiry of the appeal period. The student can obtain the photocopy from the relevant secretariat no later than on the third working day following the request. The digital scan will be sent by the secretariat to the (student) email address of the student within the same period.

8. The questions, answer sheets and the assessed work of written tests will be retained (in paper or digital form) for two years after the assessment.

Article 31** Announcement and registration of interim examination results

1. The student is informed of the results of an oral interim examination on the day on which the interim examination in question is administered.

2. Barring any unforeseen circumstances, the student will be informed – either verbally or in writing – of the mark assigned to a thesis or assignment within four weeks of the date on which the thesis or assignment was submitted to the examiner.

3. The student will be informed of the results of a written interim examination as quickly as possible, but no later than the 15th working day after the date on which the interim examination in question is administered.

4. The results of an interim examination will be submitted to the Department for Exam Administration ESL no later than four weeks after the date on which the interim examination was administered. This department sees to the registration of interim examination results.

5. Unless an evident administrative error has been made, the results of a student as recorded by the Department for Exam Administration ESL cannot be revised downward.

6. The results referred to in the previous paragraphs are announced online via MyEUR.

7. Students may at any time request from the Department for Exam Administration ESL a certificate listing the results of one or more interim examinations.

Article 32** Term of validity of successfully completed interim examinations

1. The period of validity of an interim examination passed, or compensated result, can be restricted if the examined knowledge, understanding and skills are demonstrably obsolete.

2. Six years after having obtained the result, the obsolescence of examined knowledge, understanding and skills of an interim examination passed, or compensated result, can be tested by the Examination Board ESL.

3. After consultation about the programme, the Examination Board can declare the period of validity of a component that was obtained more than six years ago as having lapsed if at its discretion the examined knowledge, understanding and the skills of the component have become obsolete and as long as the examination has not been passed.

4. The provisions in paragraphs 1, 2 and 3 apply likewise to an exemption granted and to components passed elsewhere, calculated from the date on which the interim examination or examination had originally been passed.

5. At the request of the student the Examination Board can extend the period of validity of the passed component that in its opinion has become obsolete.

6. The results of the practical tests and modular examinations will lapse if within the respective academic year the component has not been completed with a sufficient mark or a compensated result.
Chapter 9  Exemptions

Article 33** Exemptions

1. At the request of an interested party, the Examination Board ESL may grant an exemption from sitting an interim examination of a unit, if the cumulative assessment/part of the cumulative assessment of one of the faculties of ESL or another university justifies the requested exemption.

2. The request for an exemption for each unit must be accompanied by:
   - certified copies of diplomas and lists of marks
   - all documents necessary to assess the requested exemption, e.g. bibliographies, course guide description and syllabi
   - a quantitative indication of previous study loads
   - a statement with regard to an exemption previously granted to the student for one or more interim examinations
   - a statement with regard to the academic phase and the year in which the interim examination was sat.

3. An exemption will not be granted if the term of validity of a cumulative assessment unit has lapsed elsewhere.

4. In principle, no partial exemptions for interim examinations will be granted. The Examination Board ESL may depart from this provision on the basis of the hardship clause.

5. If, during an academic year, a unit is governed by exemption regulations, these regulations will be published on ESL's website. Requests for a standard exemption have to be accompanied by a copy/certified copy of the diploma earned and additional evidence, such as a list of marks, indicating all the units of study passed and the date on which they were passed. If the student is requesting an exemption on the basis of results earned at an affiliated faculty in a period during which the student in question was excluded from interim examinations at his/her own faculty due to cheating, the exemption will not be granted.

6. If the student requests an exemption on the grounds of the results he or she achieved at a sister faculty in a period when the respective student was excluded from taking interim examinations at his or her own faculty due to examination fraud, the exemption will not be granted.
1. Students who want to combine the LL.M. programme with one of ESL Law's LL.M. programme programmes (except Criminology) receive, if they have already successfully completed the cumulative assessment of one of these LL.M. programme programmes:
   - exemption from the open elective subject of the LL.M. program, and in so far as the open elective unit is part of the program.

2. Students who are admitted to the Mr. Drs. programme as meant in article 18 (Additional student support for the Mr. Drs. programme) and students who are admitted to the Double Degree in Law & Business administration in article 19 (Additional student support Double Degree in Law & Business administration) of this scheme and who have completed the bachelor of LL.M. program and the master in Economics or Business administration will receive:
   - exemption from the free elective component, insofar as this forms part of the master program.

3. The exemption requests must be made to the Examination Board ESL.
Chapter 10 Final assessment results

Article 35## Determination of final assessment results

1. After all elements of the final assessment as referred to in article 8 (LL.M. programme specialisations) of these regulations have been administered, the results of the final assessment will be determined by or on behalf of the Examination Board ESL. The Department for Exam Administration ESL verifies compliance with all final assessment requirements as referred to in article 8 of these regulations.

2. Contrary to the provisions of the first paragraph, prior to determining the final assessment results, the Examination Board ESL itself may test the student’s knowledge of one or more elements of the programme, if and in so far as the results of the interim examinations provide reason for doing so.

3. The date of graduation will be the date that follows from the ‘Procedural regulations for awarding degrees following final assessments’ in Appendix 1.

4. The Exam Administration determines more detailed regulations for registering for the final assessment. These more detailed regulations require the approval of the Examination Board ESL and will be duly publicised in good time.

5. The final assessment has an unlimited term of validity.

4. Without prejudice to the provisions of this regulation regarding the terms within which the Examination Board ESL has to make a decision on certain requests, the Examination Board ESL will decide within eight weeks of the date of receipt of the request. Every decision by the Examination Board ESL will be made in writing and substantiated.

5. The Examination Board ESL decides by a simple majority of votes.

6. The Examination Board ESL may authorize one or more members or the secretary of the board to carry out one or more of its duties, unless this is contrary to the rule on which this authority relies. This member or these members or the secretary will provide regular updates on this during meetings of the Examination Board ESL.

Article 38  Appeals protocol

1. All written decisions of the Examination Board ESL and of the examiners will include a standard statement indicating the possibility of lodging an administrative appeal to the CBE and the term within which this should be done. The student whose rights with regard to the provisions of the OER are directly affected by a decision of or refusal to take a decision by the Examination Board ESL or an examiner may lodge an administrative appeal with the CBE within six weeks of the announcement of the decision or refusal to take a decision.

2. Administrative appeals can be submitted via the EUR Legal Protection Facility (legal.protection@eur.nl).

3. The administrative appeal may be lodged because a decision contradicts written or unwritten law.

4. For that purpose, the Examination Board ESL– requested by the CBE – has to initiate consultations with the parties involved after receiving the request to determine whether the disagreement can be settled amicably. If the Examination Board ESL (vice) chairperson or member is involved in the dispute, his/her responsibilities in trying to reach an amicable settlement are assumed by another member of the Examination Board ESL.

5. The Examination Board ESL ensures that consultations for an amicable settlement proceed smoothly. Within three weeks after receiving the invitation referred to in paragraph 3 of this article, the Examination Board ESL will inform the CBE of the outcome of the consultations. If the consultations do not lead to an amicable settlement, the Examination Board ESL will ensure to submit a statement of defence to the CBE within the term indicated in the second sentence of this paragraph.
