Project information

Project aim

What is the aim of this project?

Please indicate how your project impacts students, teachers and the outside world.

What are the project goals (formulated SMART¹)?

¹ Specific, measurement, attainable, relevant and time-bound.

What is the expected duration of the project and when is the project expected to start? Please note that the final project plan should include all milestones.

Requested support

What is the type of support you request? If applicable, what is the expected budgeted amount in total?

How will this support lead to the structural embedment of this project?
