Do you have an artistic or musical talent, as well as a hunger for academic knowledge? Erasmus University Rotterdam (EUR) has teamed up with Willem de Kooning Academy (WdKA) and Codarts to offer you a unique opportunity to combine theory and practice in a five-year dual degree programme. During the dual degree at the Rotterdam Arts and Sciences Lab (RASL) you will take courses from two different programmes simultaneously, one academic and one practical. This is a unique opportunity in the Netherlands. What's even better is that you only have to pay the tuition of one degree throughout your entire study.

Why?

Today's world is in need of experts who can address complex challenges in a transdisciplinary way. Your artistic practice will benefit from your theoretical knowledge about the arts, media, culture and sciences – and vice versa. You will be able to enter the job market with either degree, but you can also integrate both studies in your future career.

Rotterdam, a great place to study

Rotterdam is a lively, innovative and diverse city that offers many activities in art, creative industries and culture. A young creative multicultural population and a no-nonsense mentality: Rotterdam is a great place to live and study! And RASL has its own creative hotspot in

the city: RASL spaces at Hilleliet in the south of Rotterdam. RASL spaces aims to diversify the relationship between educational institutions and societal partners in the field.

- Photography
- Product Design
- Spatial Design

'What drives me the most is **bridging the gap between science and the everyday person** through illustration. I work a lot with educational resources in creating comprehensive ways to understand scientific topics with the aim to create a more democratic scientific environment.'

'One of the moments I really found the bridge between arts and sciences was when doing a tribute to Miley Cyrus. I was completely dissecting **her vocals, performance and presence on stage**, but at the same time I was doing sociological research on her persona and how she portrays herself.'

Ella Wijnen,
International Bachelor Arts and
Culture Studies + Pop Vocals
