Geachte heer,

Het College van Bestuur van de Erasmus Universiteit Rotterdam heeft kennisgenomen van het door u opgestelde Wob-verzoek, zoals verwoord in uw e-mail d.d. 2 augustus 2016.

Bij dezen zend ik u een afschrift van de RSM Job Board plaatsingen door de in uw bijlage genoemde bedrijven van januari 2006 tot 2 augustus 2016. Daarnaast ontvangt u een overzicht van reeds openbare (promotie)uitingen van en/of over de in uw bijlage genoemde bedrijven.

Intensief onderzoek heeft uitgewezen dat de Erasmus Universiteit Rotterdam niet in het bezit is van andere overzichten, toelichtingen en facturen betreffende uitingen van bedrijven via de Erasmus Universiteit Rotterdam aan RSM-studenten.

Tegen dit besluit kunt u binnen zes weken bezwaar indienen bij het College van Bestuur van de Erasmus Universiteit Rotterdam.

Het College van Bestuur van de Erasmus Universiteit Rotterdam,

[Ongebruikt in tekening]

Bijlage:
1. RSM Job Board plaatsingen
2. Overzicht openbare (promotie)uitingen

Drs. K.P.B. Baete
Voorzitter

Logistics/ Supply Chain

- **Reference:** I-15-31321
- **Type:** Internship
- **Organisation:** Schlumberger
- **Location:** Rotterdam, Netherlands
- **Start date:** 01-11-2015
- **Duration:** 4 - 6 months
- **Application deadline:** 31-10-2015

Description

**Context: what is the frame of the internship?**

EAF D&M has a high value of inventory out of which close to 50% is slow moving items. The current process of excess sharing is unable to bring a good impact on overall slow moving reduction. We need an extensive analysis done to identify the weaknesses of the current processes and formulate an innovative system with processes which will effectively allow us to manage our stock.

**Mission Objectives: what is expected doing during the internship?**

- Work on identifying the excess material in EAF stores
- Identify the process we currently follow and the weaknesses with the current system
- Collect data from different SLB platforms currently in use for material management
- Suggest an innovative method of excess sharing

**Methodology: description of the project in minimum 10 steps with expected results for each steps?**

Redistribution of excess stock: SLB has in various locations across the globe, a lot of slow moving/dead stock of M&S which needs to be redistributed effectively. We have a portal which can be used to capture and publish the details with references. Below points to be
- Condition of the material
- Shelf life
- Packaging condition/repackaging requirement
- COA
- Batch number
- Product picture to showcase the current condition
- Customs lead time for export
- Return to vendor
- Identify M&S procured from Third Party, which are slow moving and work with the Procurement department to look at a possible return with minimal restocking fees.
- Store restructuring: continuously monitor store value for last 6 months and try to find out a pattern to understand why our slow moving increases. Can we prevent locations from procuring parts that eventually becomes slow movers? Is there a pattern?
- Study the stores and suggest a mechanism to automatically (automatic suggestion?) to update the excess store on a monthly basis
- Slow moving versus global POs: find out the POs/Carts raised for parts which are slow moving in our stores (set a threshold value). Then contact the locations directly offering FMT(Field Material Transfer), cancelling the shopping carts/unshipped POs.
- compare the open POs with Greenlight (terminology for OK to ship after custom requirement completion of the receiving country) pending list on all GOLD platforms and assigning the parts accordingly and canceling open (unshipped) POs

**Functional work area:** Purchasing / Supply Management / Logistics

**Hours per week:** 35 - 45

**Salary:** 1500 Euro Gross/Month

**Requirements**

- Fluent English
- Advanced Excel User/ Microsoft Office
- Knowledge of supply chain principles.

EU Customs Project

Reference: I-15-23180
Type: Internship
Organisation: Schlumberger
Location: Rotterdam, Netherlands
Duration: 20 - 26 weeks

Description

The Logistics HQ for Europe and Africa (TMC EAF) is responsible for the European transport and customs processes of Schlumberger. The low-volume, time-sensitive & high-value nature of our business forces us to search for uncommon logistics solutions – away from consolidations and stable cargo flows of FMCGs and toward a network that provides us flexibility, quality and 100% service delivery and still remain cost effective.

Schlumberger currently has a country setup with customs clearance agents (CCA's) performing import, export, transit, warehousing & other related customs activities, which is not capturing the full potential of the single EU market. We aim to bring this network of separate offices and CCA's to a higher level by implementing a European process to manage cargo flows in and out of the EU area, thereby optimizing our spend on customs duties and CCA service costs.

The intern for this project will investigate, conceptualize, develop and implement the optimal (return) export process across the EU, managed by the EAF Import Export Manager & working together with various internal departments (tax, finance, segments) and with our CCA's. At the same time, the intern will implement uniform reporting procedures across our CCA's, develop (Access/Tableau) databases and advise management on areas for improvement.

Functional work area: Purchasing / Supply Management / Logistics
Requirements

- Excellent MS Excel knowledge
- Basic Access/Tableau knowledge
- Understanding of customs (processes)
- Ability to manage through project management tools
- Flawless English communication

Applicant profile: MSc Student
Experience: not applicable
Study area: Supply Chain Management
Required language skills: English

Company

Schlumberger (NYSE:SLB) is the world’s leading supplier of technology, integrated project management and information solutions to customers working in the oil and gas industry worldwide. Employing approximately 120,000 people representing over 140 nationalities and working in more than 85 countries, Schlumberger provides the industry’s widest range of products and services from exploration through production.

Schlumberger supplies a wide range of products and services from formation evaluation through directional drilling, well cementing and stimulation, well completions and productivity to consulting, software, information management and IT infrastructure services that support core industry operational processes. Schlumberger has principal offices in Paris, Houston, London and The Hague. Revenue from continuing operations was $48.58 billion in 2014.

Logistics HQ for Europe and Africa is based in Rotterdam.

International Graduate Programme

Reference: J-14-6903
Type: Job
Organisation: RWE AG
Location: Essen, Germany
Start date: 01-10-2014
Duration: 18 months
Application deadline: 01-05-2014

Description

Your tasks:

The International Graduate Programme (IGP) is a group-wide programme within RWE for graduates of all subject areas. Main characteristics of the programme are individual freedom of choice concerning the programme stations and intensive care provided by a mentor, a coach and the person responsible for the programme. During 18 months the participants (m/f) will work in five to six projects in different countries, operating companies and departments and will acquire these projects by themselves counselled by a mentor from the top management. During each assignment, participants will work autonomously on a project with real economic significance. The success will be measured according to target agreements.

Between the project phases, there will be feedback days and learning platforms consisting of presentations, discussion panels, coaching talks and workshops. These events will also be tailored for the single participants or the group.

Functional work area: Trainee
Hours per week: 40
Requirements

Your profile:

You convince us with a degree in economics, engineering or any other field of study. Excellent academic attainments and analytical skills are as essential as very good knowledge of English and German; further (e.g. East European) language skills would be an advantage. We also premise international experience and first practical experience (e.g. internships). Moreover, you are interested in the energy branch, demonstrate initiative and willingness to perform as well as an entrepreneurial, generalist attitude.

RWE is an equal opportunity employer and welcomes applications from all sections of the community.

Applicant profiles: MBA Graduate, MSc Graduate

Experience: 0-2 years

Required language skills: English, German

Company

RWE is one of Europe’s five leading electricity and gas companies. Through our expertise in oil, gas and lignite production; electricity generation from gas, coal, nuclear and renewables; energy trading as well as electricity and gas distribution and sales; we are active at all stages of the energy value chain. Around 70,000 employees supply over 16 million electricity customers and nearly eight million gas customers with energy, both reliably and at fair prices. In fiscal 2012, we recorded approximately €53 billion in revenue.

Industry: Electricity / Gas / Steam / Air conditioning supply (distribution)

Organisation size: > 10,000

Company website: http://www.rwe.com

Meewerkstage Marketing & Communicatie

Reference: 1-16-40825
Type: Internship
Organisation: Shell Nederland Retail
Location: Rotterdam, Netherlands
Start date: As soon as possible
Duration: 6 - 9 months

Description

Binnen de divisie Shell Retail (onderdeel van Downstream Commercial) is een meewerkstage beschikbaar per 1 september 2016 (startdatum in overleg, min. 4 dagen/week, 4-6 maanden). Werkzaamheden variëren van ontwikkelen van communicatie-uitingen of social media posts (zowel offline als online), het analyseren en rapporteren over (landelijke) marketing campagnes, opzetten en coördineren van lokale acties (bv lokale Facebook campagne, huis-aan-huis folders), maar kan ook het coördineren van de distributie van marketing materialen betreffen, of het geven van interne presentaties. De campagnes op de tankstations veranderen elke 8-12 weken en zijn vergelijkbaar met FMCG-campagnes. Voorbeelden van de afgelopen campagnes zijn: partnercampagne Shell/Phillips met korting op Phillips producten; partnercampagne Shell/IEENS met tweede persoon gratis 3-gangen gerecht; somercampagne XXXL-handdoek (220x220cm) bij producten van Unilever of tanken. Speciale aandachtspunten in deze dynamische en steeds veranderende omgeving zijn digitalisering en duurzaamheid. Beide onderwerpen worden dagelijks verder ontwikkeld en hier krijg je werkelijk een ‘kijkje in de keuken’ van een (internationale) organisatie in transitie.

Vanzelfspreekend krijg jij de kans om veelvuldig met andere stagiairs en Young Shell op te trekken, ons bedrijf van binnenuit te zien en jezelf te bewijzen in een dynamische marketing omgeving.
Functional work area: Marketing / Sales
Hours per week: 32 - 40
Salary: te bespreken

Requirements
Wij zoeken:
- een ambitieuze, resultaatgerichte en gedreven WO-student;
- met goede beheersing van de Nederlandse en Engelse taal, Frans is een plus;
- communicatief vaardig, met affiniteit voor (offline en online) Marketing;
- die zijn/haar stempel wil drukken op belangrijke onderwerpen voor een marketing organisatie in transitie.

Applicant profiles: BSc Student, MSc Student
Experience: not applicable
Study areas: (Business) Information Management, (International) Management, Marketing, Entrepreneurship, Strategy
Required language skills: Dutch

Company
De divisie Shell Retail is onderdeel van Downstream Commercial binnen de Shell Groep. Het hoofdkantoor van Shell Retail is gevestigd in Rotterdam, en de marketing afdeling heeft als voornaamste taak om de marketingcampagnes op de Shell tankstations in Nederland te implementeren.

Industry: Wholesale & Retail Trade
Organisation size: 251 - 1000

Assistant Financial Controller

Reference: J-16-24567

Type: Job

Organisation: Vopak Management Netherlands B.V.

Location: Rotterdam, Netherlands

Start date: As soon as possible

Duration: indefinite

Description

Als **Assistant Financial Controller**, is het een interessante tijd om aan boord te komen bij Vopak! In deze functie werkt je in een klein team aan het opstellen van (niet-) financiële en bedrijfseconomische rapportages en analyses ten behoeve van zowel in- als externe belanghebbenden, zodat tijdig een juist inzicht wordt verkregen in de (financiële) positie van de organisatie. Voor deze positie zijn wij op zoek naar een ambitieuze Assistant Financial Controller die na een periode van ca. anderhalf jaar door zou willen groeien naar een andere financiële functie in binnen- of buitenland. Ben jij diegene waar we naar op zoek zijn? Dan willen wij je graag ontmoeten!

**Jouw functie in bulletpoints:**

- Opleveren van de concern consolidatie t.b.v. in- en externe rapportages aan management en aandeelhouders conform IFRS en bedrijfsschrijftijden in teamverband;
- Initiëren van verbeteringen van de inhoud van de rapportage evenals het rapportageproces;
- Uitvoeren van controlewerkzaamheden;
- Periodiek en ad hoc opstellen van bedrijfseconomische en financiële analyses;
- Optimaliseren van het management informatie systemen;
- Ondersteunen van groepsmaatshappijen en divisies in binnen-
Wij bieden:

Iedere loopbaan bij Vopak wordt in de gelegenheid gesteld om te schitteren! Wanneer je bij ons aansluit kun je rekenen op:

- Een uitdagende functie met een grote mate van verantwoordelijkheid in een Nederlandse multinational met een geschiedenis van meer dan 400 jaar;
- Zeer gemotiveerde collega’s;
- Deelname aan eigen pensioenfonds Vopak en collectieve ziektekosten;
- Ruimte om te groeien door middel van professionele training en persoonlijke ontwikkelingsmogelijkheden op nationaal en internationaal niveau.

*Functional work area: Finance*

*Hours per week: 32 - 40*

*Salary: Negotiable*

**Requirements**

Wij zoeken naar:

- Minimaal HBO werk- en denkniveau met een opleiding op financieel/bedrijfseconomisch gebied, bij voorkeur SPD of HEU BE/BA;
- Minimaal 2 jaar werkvaring in een financiële functie;
- Ervaring met consolidatie, (externe) verslaggeving en Tagetik / Hyperion is een pré;
- Integriteit met het omgaan van vertrouwelijke (financiële) en koersgevoelige informatie;
- Goede beheersing van vooral de Engelse, maar ook de Nederlandse taal in woord en geschrif.

Daarnaast zijn wij **op zoek naar iemand die:**

- een sterk analytisch vermogen en cijfermatig inzicht heeft;
- gericht is op kwaliteit en prioriteiten kan stellen;
- zelfstandig is, een harde werker en een flexibele en collegiale instelling heeft;
- bovengemiddelde interesse heeft in systemen / software.

*Applicant profiles: BSc Graduate, MBA Graduate, MSc Graduate*

*Experience: 2-4 years*

*Study areas: Accounting, Finance, Investments*

*Required language skills: Dutch, English*
Over VOPAK

Koninklijke Vopak NV is 's werelds grootste onafhankelijke tankopslag dienstverlener voor de olie- en chemische industrie. Vopak heeft een wereldwijd netwerk van tankterminals. Deze terminals liggen op strategische plaatsen voor gebruikers ten opzichte van de belangrijkste vaarroutes. De meerderheid van de klanten zijn bedrijven die actief zijn in de olie-, chemische- en gas sector. De producten die Vopak in opdracht van zijn klanten opslaat, worden gebruikt in een breed scala van aanverwante industrieën. De terminals van Vopak ondersteunen en optimaliseren de betrouwbaarheid en efficiëntie van de logistieke processen van zijn klanten.

Sourcing & Procurement Analyst

Reference: J-16-23763
Type: Job
Organisation: Vopak Management Netherlands B.V.
Location: Rotterdam, Netherlands
Start date: 01-05-2016
Duration: indefinite
Application deadline: 08-04-2016

Description

Do you have strong analytical skills, knowledge of ERP systems and communication skills in an international working environment? Are you looking for an 2nd or 3rd career step? Then we are looking for you.

Because of the future intern move of the current jobholder in the next months, we are looking for a new colleague.

The Global Sourcing & Procurement Analyst supports the Global Sourcing & Procurement department by analyzing processes and data with the aim to define and implement improvements.

Your main activities and responsibilities will be:

- Procurement data analysis, reporting and maintaining the global S&P dashboard that measures progress of annual plans and targets on selected KPI’s;
- Analyze trends and deviations on selected financial and process related KPI’s to enable procurement to act timely when necessary;
- Initiate process improvement projects and/or programs and support its implementation in the global procurement community (e.g. E-sourcing tool implementation, P2P blueprint...
- In selected cases, support local procurement initiatives (especially NL and EMEA);
- Structure and analyze business requirements and the translation into procurement priorities;
- Support Category management by analyzing usage, cost prices and markets to build better strategies;
- Develop and maintain systems that do support the analyses function within S&P (e.g. spend analyses tool);
- Secretary of the monthly held Global Procurement Leadership Team meeting;
- Guide and support local Terminal Procurement Plans development: in the global procurement community (e.g. via guidelines, templates and training) and monitor execution;
- Support in global Sourcing & Procurement strategy development.

Functional work area: Purchasing / Supply Management / Logistics

Hours per week: 40
Salary: Negotiable

Requirements

Education, experience and competences required:

- Master's degree, preferably in Business, Engineering or Economics;
- 2 to 5 years work experience;
- Experience in an analyst position in the industrial sector is a benefit;
- Analytical skills;
- Knowledge of ERP systems e.g. JD Edwards, SAP;
- Communication skills in an international working environment;
- Fluently English;
- Dutch language is a benefit.

Applicant profiles: MBA Graduate, MSc Graduate

Experience: 2-4 years

Required language skills: Dutch, English

Project management

Reference: I-14-20920
Type: Internship
Organisation: Mitsubishi turbochargers and engines B.V
Location: Almere Buiten, Netherlands
Duration: 12 - 24 weeks

Description

The Projects Department in Turbo Division at MTEE is looking for a talented and ambitious MSc student about to conduct the final thesis. The Project Department is responsible for all development projects. We lead multidisciplinary teams developing turbochargers from concept towards production. In short: we make things happen! Writing your thesis at MTEE is a great opportunity to join an international and successful company, which is involved in the whole process from development to production to sales of automotive turbochargers in Europe.

Possible topics:
• Improvement of Project Management System
• Implementation of new version of Project Management System
• Project control
• Project KPI's
• Development/Improvement of project documentation
• Development/Improvement of procedures and work-flows
• By combining the student's own interests and ideas with the future research needs at MTEE, we can find a topic which fulfills both our expectations.

Functional work area: Project Management

Hours per week: 40
Requirements

Are you interested in a future career in project management in a technical environment? Then an internship at Mitsubishi Turbochargers and Engines could be for you.

Requirements:

- Experience with project management
- Interest in the automotive industry
- A technical understanding
- MSc Student

**Applicant profile:** MSc Student

**Experience:** not applicable

**Study areas:** (Business) Information Management, Innovation, Supply Chain Management

**Required language skills:** English

Company

Would you like to work in a dynamic organisation, where no single day will be the same and people have a no-nonsense mentality? Then the shipping industry is probably interesting to you. Container shipping is a fascinating industry. Almost everything you can buy in a shop or store, whether it is fruit, car parts, clothing, toys, audio equipment or Christmas decorations has, probably been shipped in a container. Seasons, economies, politics and demography all have an impact on the cargoes being transported. This is the playing field of global shipping lines. If you work in MOL Europe, you will be part of an ever changing environment. In this competitive setting, shipping lines can distinguish themselves by high service levels. MOL Europe is known in the Industry as a professional and customer driven organisation.

Future Leaders Programme

Reference: J-14-11163

Type: Job

Organisation: BP

Location: United Kingdom, Spain, Germany

Start date: 01-01-2015

Duration: indefinite

Application deadline: 31-10-2014

Description

As a world leader in the oil and gas industry, BP operates at every stage of the energy lifecycle. In this highly competitive and constantly changing international market, we realised that a new perspective on leadership would help us stay ahead of the industry. So we developed a programme that takes enthusiastic, talented people from a range of professional backgrounds and gives them the skills and opportunity to drive our business forward. We call it the Future Leaders Programme.

If you have bold aspirations, true determination and a flexible outlook to work anywhere in the world, our programme will make the most of your potential, talent and experience. All while giving you the skills and opportunity to lead BP into the future and craft your own long-term career.

You'll take part in two 18-24 month rotations, one of which will be international giving you the chance to live and work in another country, a valuable opportunity both professionally and personally. At every step you'll have a mentor and access to a structured leadership development programme, attend dedicated Future Leaders Programme networking events and be part of a supportive community of future leaders like yourself.

We have opportunities for 2015 across: Australia, China, Germany,
Downstream: Business and Commercial Opportunities

You’ll need an undergraduate degree plus an MBA, MSc or MA and at least three years’ experience. We’ll take into consideration your education, experience, skill-set and ambition in order to find the best role for you in one of our key businesses: Fuels, Lubricants or Petrochemicals. Role opportunities include: finance, marketing, procurement, sales, strategy or supply chain.

Downstream: Manufacturing, Engineering and Operations Opportunities

For this path we look for people with an undergraduate degree plus an MBA, PhD or MSc at least three years’ experience, who are keen to build their career across BP’s vast Downstream operations. For this path of the programme you must be flexible and prepared to work in a position that will truly challenge your expectations. You will be rewarded as you build capabilities in some of the most technically complex environments of BP.

Downstream: Technology

We look for people who combine an undergraduate degree and an MSc or PhD in science or engineering with at least three years’ professional experience. This career path will give you a wide understanding of BP and a chance to take on some of the most innovative and technically challenging projects in the energy industry.

Safety and Operational Risk

The S&OR programme will open up an incredible breadth of opportunities. To be considered, you must be able to combine an MBA, PhD, MA or MSc with at least three years’ professional experience within an operating or technical consulting environment. We are particularly keen to talk to individuals from engineering or science backgrounds that have acquired some experience in operations, process safety or other HSE disciplines and want to develop their careers in these areas. We want people with a passionate interest in safety and environment with the ability to develop and apply deep technical knowledge to safety and operating risk to help us build a safer, stronger BP in the years ahead.

Future Leaders Programme

Reference: J-15-19103
Type: Job
Organisation: BP
Location: United Kingdom, United States, Turkey, China, Singapore, Germany
Start date: 01-01-2016
Duration: 18 - 24 months
Application deadline: 31-10-2015

Description

As a world leader in the oil and gas industry, BP operates at every stage of the energy lifecycle. In this highly competitive and constantly changing international market, we realised that a new perspective on leadership would help us stay ahead of the industry. So we developed a programme that takes enthusiastic, talented people from a range of professional backgrounds and gives them the skills and opportunity to drive our business forward. We call it the Future Leaders Programme.

If you have bold aspirations, true determination, and a flexible outlook to work anywhere in the world, our programme will make the most of your potential, talent and experience. All while giving you the skills and opportunity to lead BP into the future and craft your own long-term career.

An accelerated development programme, the Future Leaders Programme will offer you the chance to develop your full potential across our vast Downstream business. Wherever you join, as well as tailored training, you’ll have access and exposure to our senior leaders who’ll advise, support and guide you on your journey – helping you to explore your strengths and achieve your potential in whatever inspires you most.

The Future Leaders Programme runs over two 18-24 month
We’ll work closely to identify your strengths and weaknesses, so together, we can tailor the best development programme to suit and stretch you. You’ll be given real responsibility plus exposure to our business and the global energy industry. What’s more, you’ll be part of a close, supportive Future Leaders Programme community that regularly connects across countries, joining together at dedicated events, conferences and ongoing virtual meetings.

If you have the initiative, you’ll have the freedom to define how you want to progress within an organization that’s committed to supporting your talents.

- **Functional work area:** Production / Engineering / Operations Management
- **Hours per week:** 35 - 40
- **Salary:** Negotiable

**Requirements**

Along with a postgraduate degree (MBA, PhD, MSc or MA) you’ll need 3-6 years’ professional experience. We’re proud of our diversity, so there’s no single mould for our leaders. However, those that benefit the most from the Future Leaders Programme are people who are flexible self-starters with real initiative to drive their career; people who are adaptable to an environment that evolves as their experience grows.

We look for leaders who listen and are comfortable giving and receiving feedback; those who are respectful of the people they work with, and have the courage to speak up when something isn’t right or could be better. If you’re eager to learn, open to new ideas, determined to succeed and able to build strong professional relationships, then you have precisely what we look for in a future leader.

- **Applicant profiles:** MBA Graduate, MSc Graduate, PhD Graduate

STEPS Programme Analyst

Reference: J-13-0563

Type: Job

Organisation: BP Raffinaderij Rotterdam

Location: Rotterdam Europoort, Netherlands

Start date: 01-10-2013

Duration: indefinite

Application deadline: 30-09-2013

Description

BP Refinery Rotterdam is one of the largest refineries in Europe and is strategically located at one of the busiest oil trading ports in the world.

Primary tasks within the Finance department are the Refinery strategy, medium & long term financial planning, benchmarking, business management support and performance management. Last year the refinery started a refinery wide business improvement programme (called STEPS), which aims to improve the refinery’s competitive position. The Finance team is involved in supporting this programme, therefore there is an opening for a

STEPS Programme Analyst

This role’s main accountability is to support the STEPS Programme Manager and the Refinery Team Leader Finance.

This role offers the successful candidate an insight into strategy, operational, commercial and financial activity at the refinery. It also offers exposure to financial and performance management processes at both refinery and SPU level, plus significant senior refinery management exposure.

Responsibilities and Accountabilities

- Support the STEPS programme by facilitating and participating in regular progress meetings, and milestone tracking;
Support project managers in executing the STEPS programme initiatives.

Facilitate and execute STEPS communication Plan, i.e. in cooperation with communications department, prepare communication material for internal (Refinery) as well as external (BP Group) communication;

Prepare STEPS review material for the quarterly review meeting between refinery management and BP Eastern Hemisphere Refining Vice President;

Prepare (ad hoc) clear and concise Management Information on STEPS for the refinery Management Team and/or for senior BP (Refining) Management;

Conduct ad hoc studies on various operational/commercial topics relating to STEPS.

**Functional work area:** Finance

**Hours per week:** 40

**Salary:** Negotiable

**Additional benefits:** 13th month, Bonus, Holiday pay, Laptop, Pension, Travel expenses

**Requirements**

- A Bachelors degree in Finance or Economics is preferred; engineering with experience in finance or performance management also acceptable
- Proactive, self-starter, team-player;
- Strong communication and presentation skills;
- Influencing, networking and relationship building skills;
- Highly numerate with strong analytical skills and focus on data integrity;
- Lean Six-Sigma skills is advantageous
- Strong project management skills with track record of delivery
- Fluent English is essential. Dutch language skills (both written and verbal) are strongly desired;
- Refinery process knowledge would be advantageous but not essential.

**Additional Information**

- A personal profile analyses is part of the recruitment procedure;
- BP Raffinaderij Rotterdam offers an excellent remuneration package with possibilities for personal growth and development.
Company

BP Refinery Rotterdam (BPRR) has two locations namely Europoort and Pernis. The Europoort refinery with an annual capacity of 150 million barrels of crude oil is one of the largest refineries in Europe and is strategically located at one of the busiest oil trading ports in the world.

As a multi-national company, we want our workforce to represent the societies in which we operate. So we work to attract, motivate, develop and retain the best talent from communities around the world and our commitment to diversity allows us to be competitive and thrive globally.

We believe that success comes from the energy of our people. By living our values – Safety, Respect, Excellence, Courage and One Team – we create an inclusive working environment where everyone can make a difference and give their best.

All our senior leaders are accountable for driving Diversity & Inclusion (D&I) and attend training on how to become more inclusive leaders. We have set out what we believe to be good practice in our Group 'D&I Ambition' and every business has a local plan aligned to that ambition.

We believe that the proportion of women in leadership positions should reflect our workforce as a whole. Our international women's network (BPWIN) runs a range of empowering and educational events.

Officer Accounts Payable / Accounts Receivable

Reference: J-14-7683
Type: Job
Organisation: BASF
Location: Berlin, Germany
Duration: 1 - 2 years

Description

The Accounts Payable and Accounts Receivable departments provide professional invoice processing as well as collection services to all European BASF Group companies in scope. In an international environment, you will be employed in one of the aforementioned departments. As Officer Accounts Payable you will not only be performing classical accounting activities such as checking invoices, clarifying accounts and preparing payment runs, but will also be in charge of the monitoring, analyzing and post-processing of automatically booked invoices. The responsibility of an Accounts Receivable Officer mainly consists of booking incoming payments as well as handling intercompany payments and accrual postings. Participation in temporary projects regarding the structuring and development of new processes is possible.

Functional work area: Account Management
Hours per week: 40
Salary: Negotiable

Requirements

You have successfully completed your business degree or vocational training and are currently looking for a new professional challenge. Being a young professional, you have gained first work...
Officer Accounts Payable / Accounts Receivable

Being an experienced professional, you have been able to build up an extensive comprehension of Accounts Payable and Accounts Receivable processes in the context of a shared service center. Your fluent English and German language skills enable you to work in an intercultural team. Moreover, depending on your operational area, you have a very good command of at least one further European language. Ideally, you are familiar with SAP R/3. We look forward to receiving your application if you distinguish yourself through your excellent communication abilities, you enjoy working in an international environment and are open to changes.

Applicant profiles: BSc Graduate, MSc Graduate
Experience: 0-2 years
Study area: Accounting
Required language skills: Dutch, English, German

Company

START in Business & Corporate

Reference: J-14-10586
Type: Job
Organisation: BASF
Location: Ludwigshafen, Germany
Start date: 05-01-2015
Duration: indefinite
Application deadline: 31-10-2014

Description

If you have studied business or economics, or engineering, chemistry, or informatics with a minor in business, you may qualify for the START IN Business & Corporate trainee program. We are looking for interested and interesting young trainees with a variety of backgrounds in order to prepare them to assume challenging technical and management positions. We expect you to have completed a bachelor's, master's or equivalent degree with good grades, and we also attach great importance to personal strengths such as communication skills, intercultural experience, creativity, and a team spirit.

You train at our corporate headquarters in Ludwigshafen, Germany or at one of our German companies. Depending on the program, it may include an assignment abroad. From day one, you assume responsibility and are individually and systematically prepared for your future tasks. You also strengthen your personal and technical knowledge and capabilities by attending internal seminars and participating in networking events along with other trainees and managers.

You'll find more information on the START in Business & Corporate trainee programs here
Functional work area: Trainee

Hours per week: 40

Salary: To be discussed

Requirements

We are searching for graduates with a Master's degree or Diploma in Business, Political Sciences, Economics, Information Management or Industrial Engineering. Besides the academic qualification, very good German and English language skills and IT-skill in standard applications you impress us with your competencies in:

• Teamwork ability
• Intercultural competence
• Striving for achievement and performance orientation
• International experiences are of benefit.

Applicant profiles: BSc Student, MSc Student

Experience: entry level

Required language skills: English, German

International Internship Program "Explore Together" - Supply Chain Management in Florham Park

Reference: I-14-21720
Type: Internship
Organisation: BASF
Location: Berlin, Germany
Start date: 01-03-2015
Duration: 3 - 6 months
Application deadline: 01-02-2015

Description

In the course of your three to six months internship in Florham Park, New Jersey, you will help to develop and implement a shared supply chain service and help to pilot a transportation planning system. You will get to know pricing processes and will optimize resource usage. You would also be provided with the opportunity to enhance your capabilities during this exciting time through your involvement in running test scenarios, troubleshooting and logging system and process issues.

We offer: The Human Resources department in Ludwigshafen will help you with organizing flights and visa in advance of your trip. In addition to an internship salary you will receive an attractive benefits package including reimbursement of your flight and visa expenses. Networking events in Ludwigshafen will introduce you to BASF headquarters and provide an opportunity to connect with BASF employees and fellow participants. Furthermore, you will become a member of our European Talent Pool.

Apply now through the apply now button with your full set of documents, including a letter of motivation and your CV in English.
Functional work area: Purchasing / Supply Management / Logistics

Hours per week: 40

Salary: To be discussed

Requirements

You are a proficient English speaker with an academic background and a passion for economics? Then you might be the perfect match for our international internship program in Florham Park, New Jersey! We are looking for an innovative team-player who contributes creative solutions and who has gained first experience in the field of supply chain management as well as practical experience within the industry. In addition, you are currently enrolled at a European University, where you have achieved above-average results and have engaged in extracurricular activities. Furthermore, you have gained first international experience.

HR Compensation & Benefits

Reference: I-15-29039
Type: Internship
Organisation: BASF
Location: Arnhem, Netherlands
Start date: 01-11-2015
Duration: 15 - 25 weeks
Application deadline: 31-10-2015

Description

Je bent werkzaam op de afdeling Human Resources en ondersteunt de Head of HR en Compensation & Benefits Specialist van BASF in Nederland.

- Tijdens je stage zal jij je onder andere bezighouden met de uitvoering van diverse HR-instrumenten zoals beloning, secundaire arbeidsvoorwaarden, employer branding en communicatie.
- Je treft voorbereidingen voor de modernisering van het BASF NL arbeidsvoorwaarden pakket (analyseren van verschillende regelingen en benchmarks, doorrekenen van verschillende scenario's, communicatie van resultaten, etc).
- Verder is er ruimte om vanuit verbeter - en verandermanagement zaken te analyseren en processen te verbeteren.
- Je zou bijvoorbeeld onder andere aan de slag gaan met HR kerngetallen of het doen van een onderzoek naar duurzame inzetbaarheid. Hiervoor ga je zowel met managers als medewerkers in gesprek en doe je aanbevelingen of ontwerp je een aanpak.
- De combinatie met een afstudeeronderzoek is mogelijk.
Requirements

- Je bent goed met office (met name met Excel) en heb Analytisch en cijfermatig inzicht.
- Uitstekende schriftelijke en mondelinge communicatieve vaardigheden.
- Affiniteit met chemie.
- Doortastend en doelgericht.
- Verder ben je een initiatiefrijk persoon, heb je verantwoordelijkheidsgevoel en ben je competitief ingesteld.
- Teamgeest en enthousiasme zijn belangrijk omdat je veel met anderen moet samenwerken.

Trainee in PR / Communications

Reference: J-15-19943
Type: Job
Organisation: BASF
Location: Ludwigshafen, Germany
Start date: 01-01-2016
Duration: indefinite
Application deadline: 15-11-2015

Description

In this challenging trainee position in Communications & Government Relations BASF Group, you can expect a wide range of activities in internal and external communications, starting in January 2016 and limited for a period of 24 months.

You will obtain a well-founded communications training in internal communications, in media relations and in the PR unit of German subsidiaries. Here you will experience how we communicate relevant topics through dialog with our target groups, e.g. innovation or sustainability.

You will compose journalistic texts for corporate publications and press releases and contribute to communications projects.

By job shadowing in media - daily newspaper, radio, TV - or agencies, you will become familiar with the various work methods and expand your network.

Personalized coaching and a helpful group of current and former trainees offer you ideal conditions.

Functional work area: Corporate Communications
Hours per week: 37 - 38
Requirements

You have successfully completed your master's degree with above-average grades and have already gained some initial experience in PR and journalism.

You are able to express yourself with an assured style in English and German, are creative and have strong communications skills and a great sense of empathy.

You can take complex issues and present them in an intelligible manner and comprehend the needs of your (internal) customers.

You approach new situations with an open mind and have become acquainted with foreign cultures while studying or completing an internship abroad.

Please include a sample of your work in your online application and a copy of your driving license category B.

Applicant profile: MSc Graduate

Experience: entry level

Required language skills: English, German

Company

At BASF, we create chemistry - and have been doing so for 150 years. Our portfolio ranges from chemicals, plastics, performance products and crop protection products to oil and gas. As the world's leading chemical company, we combine economic success with environmental protection and social responsibility. Through science and innovation, we enable our customers in nearly every industry to meet the current and future needs of society. Our products and solutions contribute to conserving resources, ensuring nutrition and improving quality of life. We have summed up this contribution in our corporate purpose: We create chemistry for a sustainable future. BASF had sales of over €74 billion in 2014 and around 113,000 employees as of the end of the year. BASF shares are traded on the stock exchanges in Frankfurt (BAS), London (BFA) and Zurich (AN).
