Partner agreement with the foundation for refugee students (UAF)

For many years now, EUR has provided support for both refugee students and scholars together with organisations such as the Foundation for Refugee Students (UAF). This support is provided for their studies and also involves providing a temporary research position or assistance in finding a position in the labour market. In signing the partner agreement on 6 April, UAF and EUR expressed their intention of expanding their collaboration in the coming years. The network that EUR has built to date is a perfect fit for a university that is a global community, and it enables us to help participants in the Erasmus Preparatory Year get acquainted with the campus and the city.
