# 1. Introduction

This manual shows how your researcher profile can be created. A researcher profile is an individual internet profile that provides a user friendly and efficient way of showcasing the work of you.

Having a researcher profile:

- . Showcases your work to the world
- . Manages your publications list
- . Helps to be identified by potential collaborators
- . Helps to avoid misidentification
- . Enables your research output to be attributed to the EUR
- . Enhances your EUR researcher profile page by including a link to other profiles

A researcher profile is dynamically built with data from the data sources:

PromasResearcher profile informationPersonal MetisPublicationsHR SAPEmployee and affiliation informationIDMEmailadress, roomnumber and telephone number

The first chapter shows how you can add information in **Promas** to build your profile. Chapter 2 shows which information is derived from other databases as written before.

# Profile

Guido Baltussen is Professor in Finance (Chair: Behavioral Finance and Financial Markets) and a full Tinbergen and ERIM (high performance) fellow. In addition, he works at Robeco Asset Management as (Co-)Head of Quant Allocation, managing several quantitative investment strategies. Before he obtained his PhD in Finance at the Erasmus University Rotterdam, and was visiting at Stern School of Business of New York University, New York, USA. His expertise is Behavioral Finance, Factor-based Investing and Behavioral Finance Investing, with research focusing on the boundaries of Behavioral Finance and Asset Pricing, Investments, Portfolio Construction and Individual Investor Decision Making. Guido has published several articles in the leading... **Read more** 

# Research

This information refers to research projects but will **not** be shown on the People pages.

# 2.4 Results

Manage the results you would like to show on your People pages. Further on, it's possible to show your *Key publications* apart from the complete publication list.

Promas only distinguishes between the audience of your works (Academic, Professional and Popular), but the differentiation between the output types will be visible on the People pages.

### Side Positions

This information will not be shown on the people pages, but can be used in exporting your own personal profile. The ancillary activities which are shown on the people pages are based on the <u>Erasmus Register</u>.

# 3. People pages

# 3.1 General characteristics

- . The personal pages are available for researchers
- . They are dynamically built with data from different data sources
- . Personal pages can only be displayed if the email address in the Metis work address and the MyEUR addressbook are the same!
- . Content management is done via data sources: Metis, Personal IDM, the Erasmus Register for Side Positions and Osiris
- . The personal page update is running 4 times a day (5:00, 11:00, 17:00, 23:00).
- . Personal pages have an EUR look and feel
- . The detail page url is: <u>https://www.eur.nl/people/</u> followed by the *fristname-lastname* or initials-lastname.
- . There is only one version of a personal page available, this is the EN version.
- . Above the list is a search field for search on name of a researcher

# 3.2 List View

On the EUR website you will find the list with <u>Researcher Profiles</u> also known as people pages.

The list view displays

## A profile picture

This picture can be edited in MyEUR my.eur.nl login with ERNA id Under setting, My account the profile picture can be edited.

Note: It takes 24 hours, for the changed profile picture to be visible on the Personal page

### Titulature, Firstname (if available), Initials, Lastname

Procedure to add a first name go to personal.idm.eur.nl and use the tab "Given name" in the Personal Details tab

### Profession, Organisation

This information comes from Metis Present position. This information will also be shown on the detail page.
