You are welcome on campus

Students are only welcome for scheduled education or a reserved study place. Employees work from home, unless the employee has to be present location-specific, scheduled education on campus, to perform location-related research or work.

While on campus, stick to campus protocol and follow the instructions in the buildings. Check the EUR website for the latest status.

Are you (or a roommate) in a high-risk group and worried about coming to campus? Consult with your manager/study advisor.
